HUS1032

The Huslog HUS1032 Airfryer is a modern, fat-free fryer that allows you to prepare healthy and delicious meals for the whole family. Equipped with 10 automatic programs, it enables quick preparation of fries, meats, fish, pizza, bread, cakes, and even drying fruits and mushrooms. The spacious 5L basket and rack ensure ease of cooking larger portions. The LED touch panel with intuitive controls makes it easy to adjust the temperature ranging from 40–200°C and the time from 1 to 720 minutes. With a power of 1500 W, the device heats up quickly and guarantees perfect crispiness of dishes. Interior lighting and a viewing window allow you to monitor the cooking process without opening the lid. Its sturdy construction made of plastic, metal, and chrome, a safe, non-heating handle, and an audible signal at the end of cooking make the Huslog a practical device for everyday cooking.

### Specification
