HUS1023

The Huslog HUS1023 Airfryer is a multifunctional fat-free fryer with a power of 1800 W, allowing you to quickly and healthily prepare your favorite dishes. Equipped with 12 automatic programs – from fries, pizza, roast, and chicken to drying fruits – it offers complete freedom in cooking. The touch panel with an LED display and clear pictograms makes operation easy, while the interior lighting and large viewing window allow you to monitor the cooking process without opening the device. The spacious interior and rich set of accessories, including mesh trays, a rotating basket, a skewer, and a basket, enable the preparation of a variety of dishes. Temperature control (80–200°C, in dehydrator 30–80°C) and time adjustment (1–90 min, in dehydrator 2–24 h) allow you to tailor the settings to your needs. Its solid construction and high power guarantee quick results – for example, fries in 15 minutes, roast in 25.
