Forevive 3 is an elegant smartwatch for women that supports a healthy lifestyle and daily activity. It offers a wide range of health and sports features to help maintain fitness, monitor well-being, and organize tasks. It analyzes sleep quality, measures heart rate, blood oxygen saturation, and body temperature. It includes a menstrual calendar, step counter, and calorie burner, as well as reminders for hydration and activity. It offers various workout modes, such as running, cycling, swimming, gym, and yoga, helping to track progress and set goals. It displays notifications for calls and messages, allows music and camera control, and also provides an alarm clock and weather forecast. The package includes two bands – an elegant mesh bracelet and a silicone sport strap. You can change the watch face and customize the smartwatch to match your style. The Forevive 3 is waterproof with an IP68 rating, resistant to water and dust, allowing it to be worn during workouts, in the rain, and in the shower. The metal case and clear 1.4-inch IPS screen ensure excellent visibility and durability. It is the perfect combination of functionality, elegance, and comfort for modern, active women.

Specification
