

# Devia car holder EA497 with wireless inductive charger black 15W with suction cup

BRA013999  
6942297106574  
EA497

The Devia car mount EA497 features an automatic clamping system thanks to sensors that detect the size of the phone. When the phone is placed in the mount, wireless charging begins. Fast wireless charging is provided by a 15W charger. The charger has a USB-C port. The 360° rotation and adjustable arm with a suction cup allow for convenient placement of the phone and safe driving. The mount can be attached to the windshield or dashboard.

## Specification
