

Anti Shock 1,5 mm case for Realme C75 transparent

GSM192883
5907504512990

The Anti Shock cover is an aesthetically pleasing high-quality product. The Anti Shock series stands out with reinforced corners and an increased thickness of up to 1.5 mm. The TPU material used and the thickness of the cover guarantee greater protection for the phone against shocks and scratches. The cover is fully transparent. The additional rough inner layer prevents moisture accumulation and the cover sticking to the smartphone case. The Anti Shock series has cutouts for all ports and embossed spots for buttons. - The cover minimally increases the size of the smartphone. - It can be successfully used in car holders. - It does not restrict the operation of wireless chargers and magnetic stickers. We remind you that the natural property of TPU material (thermoplastic polyurethane) is the darkening process. This occurs after prolonged use or contact with dyes. Extended exposure to sunlight also causes discoloration.
