Buy now

9D 10-in-1 tempered glass is an advanced screen protection for smartphones, combining high resistance to scratches and impacts with excellent image clarity. With a thickness of 0.3 mm, a hardness of 9H, and adhesive covering the entire surface, it ensures durable adherence, while the oleophobic coating reduces the visibility of fingerprints. The precise fit with the frame guarantees complete coverage of the display and comfortable touch functionality. The package includes 10 pieces of 9D tempered glass along with a wet and dry cloth for each element.
