Slim 2mm BOX covers are transparent cases made of high-quality flexible TPU, resistant to abrasion and damage. The thickness of 2mm offers solid protection for the smartphone without increasing its weight and while maintaining the original shape of the device. The product is slightly reinforced, perfectly fitted, with precise cutouts for ports and embossings for buttons. The interior of the case protects against sticking and moisture. The covers are suitable for personalized prints and are packaged in aesthetic blisters. Prolonged exposure to UV radiation should be avoided.
