Huslog milk frother black 500W MilkBubble

AGDAOHUS100134
5902983643074
HUS1062

Compact milk frother with a power of 500 W, allowing for the preparation of foam and heating of milk in several options. The device offers 4 operating modes: dense hot foam, light hot foam, cold foam, and a milk heating function. The maximum heating capacity is 300 ml, and frothing capacity is up to 150 ml of foam, which makes it easy to prepare several drinks in a short time. The frother is compatible with cow's milk and plant-based drinks, and automatic shut-off and overheat protection support safe usage.
