VCH201

A vacuum cleaner is a must-have for every apartment, house or office where we want to keep order and cleanliness. To fulfill its role, however, it must be characterized by the convenience of use, maintenance, and also perfectly cope with reaching the nooks and crannies where dust usually collects. The BLAUPUNKT VCH201 2-in-1 handheld upright vacuum cleaner meets all these requirements. The efficient 800 W motor allows you to maintain a decent suction power to effectively collect dirt. The high efficiency of this model is emphasized by the use of the most advanced, replaceable HEPA filter and a triple filtering system. The user can be sure that dust, bacteria or fungal cells will be retained. The impurities are collected in a plastic tank with a capacity of 1.5 l, which is easy to empty and clean. Free maneuvering during vacuuming are the great advantages of this model. The 4.8-meter cord allows you to vacuum even hard-to-reach places. Additionally, thanks to the foldable handle, it takes up much less space than traditional vacuum cleaners. The low total weight of the device (2.6 kg) completes the comfort of use. The VCH201 model comes with extremely necessary accessories, i.e. a floor nozzle and brush, a crevice nozzle, a bristle nozzle and a turbo brush.
