AK-2149

Crispy waffles are now also at your home thanks to the Huslog waffle maker. Compose the perfect sweet or savory toppings and surprise your loved ones with delicious waffles. Monitor the baking progress thanks to the convenient Cool Touch handle. High power of the device – the Huslog waffle maker boasts a high power of 1200 W. This ensures that the waffles are baked quickly and to a perfect golden color. Large heating plate area – with the Huslog waffle maker, you can prepare two reasonably sized waffles. Compact size – the waffle maker won't take up much space in the kitchen and is convenient to store. Temperature control – it is done using a comfortable and intuitive knob. This allows you to select the temperature for perfect waffles. Intuitive operation – the waffle maker is incredibly easy to use, which, combined with its other features, guarantees satisfaction from baking crispy waffles at home. Cool Touch handle – allows you to open the waffle maker while in operation to check on the waffle baking progress. Non-stick coating – the Huslog waffle maker has a special non-stick coating, making it easy to remove the waffles. It also ensures easy maintenance of cleanliness. Operation indicator lights – two indicator lights inform about the device's operating status. When both lights are on, it means heating is in progress. When the waffle maker is ready to operate, the green light will turn off. Technical specifications: Model AK-2149 Power supply 220–240 V~ 50/60 Hz Power 1200 W Heating plate 23 x 16.8 cm Additional Non-stick coating Included: Waffle maker User manual
