LXWT12

Miniature fan heater connected directly to the socket, equipped with a number of advanced functionalities. High quality LTC fan heaters are made of high-quality materials, which clearly translates into durability and reliability of the devices. The product is characterized by high performance and wide functionality, while maintaining compact dimensions. LTC fan heaters are devices that meet the expectations of the most demanding customers. 2-step adjustment WT12 is a device equipped with 2 operating modes that affect the operating characteristics of the device. The button on the heater housing allows you to choose one of two airflow intensities. Two-stage regulation allows you to reduce power consumption in situations where operation of the device at maximum intensity is not required. Built-in thermostat The second way to adjust the operating characteristics of the device to the user's needs is the built-in thermostat. A dedicated pair of buttons located on the housing allows you to adjust the temperature of the air coming out of the device. The thermostat combined with the ability to specify the operating mode allows for precise control over the device. LED display The upper part of the device housing is occupied by a digital LED display, surrounded by buttons controlling the device. The display collects all information about the operation of the device and provides it in a clear way. Thanks to it, the user is able to read the current operating mode, thermostat temperature and timer settings. Timer The fan heater is equipped with a timer that allows you to specify the working time of the device and schedule automatic shutdown. Thanks to this function, the user is able to set the remaining working time of the device in the range of 1h - 12h. From now on, you no longer have to worry about whether the device has been turned off, with the WT12 you know it for sure.

Specification

- Type of product:** fan heaters
- Net weight:** 500 g
- Dimensions (mm) LxWxH:** 160 x 85 x 140 mm
- Working temperature:** 15°C up to +32°C
- Backlight:** LED
- Power:** 400 W
- Brand:** LTC
- Functions:** autotimer
- Colour:** black
- Material:** polymer material
- Input voltage:** AC 220-240 V, 50 - 60 Hz
- Airflow Adjustment:** 2-stage
- Warranty:** 24 month
