Buy now

The Semi-Silicone MagSafe Case from Mercury brand provides excellent grip and model-specific fit, as well as a pleasant user experience while ensuring full safety for the phone. The case is made of high-quality materials, which, as a result of combining silicone, polypropylene, and polyurethane, offers both an elastic and a pleasant-to-touch cover. The Semi-Silicon series has been upgraded with MagSafe compatibility. To protect the phone from scratches, the interior of the case is covered with microfiber. Thanks to its matte texture, the Mercury Semi-Silicone MagSafe Case fits securely in the hand, thereby reducing the risk of slipping out, and during accidental drops, it effectively cushions shocks.
