Smart Luxe leather case for Samsung Galaxy A13 4G black

GSM277058
5908067002317

Smart Luxe is an elegant flip case for smartphones with a smooth, matte surface and a practical interior layout. The case protects the front and back of the device during everyday use and provides space for cards, documents and cash. The interior includes three card slots, a transparent window for a photo or document, and an additional compartment for banknotes or receipts. The flexible TPU inner shell holds the smartphone securely in place and helps protect the device edges against impacts and scratches. Precise cut-outs ensure access to the camera, flash and ports. The magnetic closure reduces the risk of accidental opening. The speaker cut-out in the front flap allows phone calls to be made even when the case is closed. The subtle leather-look design, neat edge stitching and availability in black or brown make Smart Luxe a practical protective case for everyday use.
