Fast charging and the option to power two devices at the same time? With Baseus, it's possible! The CCXJ-B01 charger has two ports — USB-C and USB-A, and thanks to the technology used it ensures safe use. This compact accessory is compatible with most popular devices — it will surely come in handy more than once. With this charger you can charge your devices up to three times faster than usual. The product supports fast charging protocols such as PD 3.0 and QC 3.0, for example.
