5900495763150

Forever BH-100 XXL bicycle holder is an ideal product for cyclists using their smartphones while riding. Waterproof - can be used even in the rain. Attached to the handlebar of the bicycle, it keeps the device stable in the right place for the user and allows free use of navigation or music player. The conductive foil allows you to use the phone without taking it out from the cover. The holder is rotatable, enabling it to be placed in a convenient vertical or horizontal position. Thanks to its waterproof properties, the device inside the cover can be used in the rain without worry. The case is tightly closed with a lock, so that the phone is effectively protected even in the most difficult conditions. XXL size holder is designed for phones with screen sizes up to 6.5". Suitable for smartphones such as: Samsung, Huawei, LG, Sony, iPhone, Xiaomi and others. When choosing the right size of the case you should refer to the phone dimensions. In order to connect the case with the clip, firmly insert the connecting bracket into the connecting element on the case until the latches snap (clicking). The case is held firmly and steadily in the holder. Dependable The BH-100 XXL holder is an excellent accessory, allowing you to use the phone on any bicycle trip regardless of the weather conditions. The cradle effectively secures the phone, and the flexible material keeps the device stable inside the cover. Easy to use The bracket is attached to the bike frame by means of a solid clamp, which holds the product steady while riding. Adjustable angle The swivel head allows you to adjust the tilt of the handle by 360 degrees, thus allowing you to adjust the appropriate viewing angle to your needs. Touch-conductive foil The conductive foil, due to its good touch sensitivity, provides easy access to all functions, such as maps, photos, videos, answering calls, etc. without the need to take the device out of the case. Window size: 150 x 72 mm Phone slot size: 185 x 110 x 15 mm.
