

Night Light LED FLC-02 PIR 3xAAA Forever Light

RTV100369
5900495068439

The night light with motion sensor will light up the path with gentle light. Simple design of this light will ensure reliability for years to come. Lamp includes a convenient mounting system and easy access to the batteries. Thanks to the possibility of mounting with screws or double sided tape the lamp can easily be attached to bed, wall, desk, stairs or inside the wardrobe. (Mounting pins included) The motion and low light sensor combined with low power usage of the device will ensure long work time between battery changes.
