Screen and edge coverage Original combination of case and glass from the Danish brand PanzerGlass. The product consists of 4 layers, covers the entire screen with edges. Crystal clear protects against scratches and cracking of the screen when hit or dropped, while protecting your health thanks to the antibacterial coating that kills viruses and fungi that accumulate on the surface of the glass during everyday activities. Kit contents Each package contains an application kit that helps in the correct installation of the glass. The manufacturer of PanzerGlass in the Full Body Protection model has included: PanzerGlass Full Body Protection glass Application kit (wet cloth, dry cloth and dust sticker) Properties Full screen coverage with excellent screen sensitivity. The glass has rounded edges to prevent chipping. Full functionality thanks to cutouts for buttons. The oleophobic coating reduces greasy marks to a minimum, and the silicone coating ensures perfect adhesion. The antibacterial coating protects against harmful factors such as viruses and bacteria from the surrounding environment.
