Wireless power bank with suckers 10000 mAh WTB-100

The WTB-100 power bank is a practical and durable device, thanks to which you can charge your phone even in the most extreme conditions. Reinforced housing provides protection against water, dust and mechanical damage, making it ideal for trips and travels. The 10,000 mAh capacity allows you to charge the phone several times. USB + USB Type-C outputs allow you to connect various types of devices.
