For decades, the Guess brand has been equated with excellent design and the highest quality. The new collection of 4G Double Card Triangle Logo protective cases is based on the same values. It is characterized by a printed 4G logo on a luxurious leather texture, signed with a metal, triangular Guess logo, and two sewn pockets in which you can hide payment cards or documents. The case is made of a combination of high-quality polycarbonate (back) and ecological leather and flexible TPU silicone (sides), which ensures easy installation.
